

J/22 Worlds "returning" to SYC

Wednesday, 19 January 2011

Last Updated Tuesday, 07 June 2011

In the Summer of 1991, SYC hosted sixty J/22s for a North American Championship that would be unofficially dubbed "The First J/22 Worlds". This was due to the participation of two teams from South Africa, home to the first J/22 fleet outside of North America. Over the last two decades, fleets have sprouted around the globe and the J/22 has received ISAF-sanction as an "International Class". This October - twenty years after hosting the "first" J/22 worlds - SYC will proudly host the official International J/22 Class World Championship! Visit the event web site
